

BIOS Grow Lamp

Horticulture T5 LED

The BIOS Horticulture T5 LED Grow Lamp is an ideal solution for horticulture applications. Featuring a Broad White Spectrum optimized to support superior plant growth and yield.

Specifications

CCT: 4100K
Wattage: 24
PAR ($\mu\text{mol/s}$): Low: 55
PAR Photon Efficacy ($\mu\text{mol/J}$): 2.3

Ordering Information

Part # BIOST5-GROW

Features and Benefits

- Broad White Spectrum optimized to support superior plant growth and yield
- Direct re-wiring not required, designed to work with existing T5 fixtures
- Uniform light distribution for horticultural applications
- Mercury free, recyclable, long life, low energy consumption
- Ideal for vertical racking systems and indoor farms

	CCT	PAR ($\mu\text{mol/s}$)	% Blue	Power (W)	Eff ($\mu\text{mol/J}$)
T5 Grow	4100K	55	17.5%	24	2.3
